Notes :

The Holdings reflecting in the Portfolio Reports will not match with the Holdings reflecting in DP statement, you may have to reconcile the holdings with your DP Statement.

To reconcile your trades with your depository transactions, transfers to/from non-JM Financial Services depository accounts have been considered as purchase/sale transactions. The buying or the selling rates as the case may be for such transfers are the previous day's closing prices. This will affect your profitability statements as we are not aware about the actual cost of Purchase or sale done with other Stock brokers.

Auction Entries are reflected in the same date on which the actual transactions have been made and not on the day of Auction. Consequently, the Gain Loss statement will be shown as Intraday Gains/ Loss for the quantity of shares auctioned.

Corporate action adjustments have been carried out wherever available.

Please note the buy/sell rate is rounded off to 2 decimals whereas the value is calculated upto 4 decimal places.

Notes :

The Holdings reflecting in the Portfolio Reports will not match with the Holdings reflecting in DP statement, you may have to reconcile the holdings with your DP Statement.

To reconcile your trades with your depository transactions, transfers to/from non-JM Financial Services depository accounts have been considered as purchase/sale transactions. The buying or the selling rates as the case may be for such transfers are the previous day's closing prices. This will affect your profitability statements as we are not aware about the actual cost of Purchase or sale done with other Stock brokers.

Auction Entries are reflected in the same date on which the actual transactions have been made and not on the day of Auction. Consequently, the Gain Loss statement will be shown as Intraday Gains/ Loss for the quantity of shares auctioned.

Corporate action adjustments have been carried out wherever available.

Please note the buy/sell rate is rounded off to 2 decimals whereas the value is calculated upto 4 decimal places.

The buying or the selling rates as the case may be for such transfers are the previous day's closing prices. This will affect your profitability statements as we are not aware about the actual cost of Purchase or sale done with other Stock brokers.

Auction Entries are reflected in the same date on which the actual transactions have been made and not on the day of Auction. Consequently, the Gain Loss statement will be shown as Intraday Gains/ Loss for the quantity of shares auctioned.

Corporate action adjustments have been carried out wherever available.

Please note the buy/sell rate is rounded off to 2 decimals whereas the value is calculated upto 4 decimal places.

JM FINANCIAL

JM Financial Services Limited

Gain/Loss Report (For F&O / Commodity / Currency)

Summary Report (1039)

Report Coverage : MCX COMM

Client Code :105310097 (PRITI RAKESH KOTHARI)

Period : 01/04/2026 To 31/10/2026

Notes :

The Holdings reflecting in the Portfolio Reports will not match with the Holdings reflecting in DP statement, you may have to reconcile the holdings with your DP Statement.

To reconcile your trades with your depository transactions, transfers to/from non-JM Financial Services depository accounts have been considered as purchase/sale transactions. The buying or the selling rates as the case may be for such transfers are the previous day's closing prices. This will affect your profitability statements as we are not aware about the actual cost of Purchase or sale done with other Stock brokers.

Auction Entries are reflected in the same date on which the actual transactions have been made and not on the day of Auction. Consequently, the Gain Loss statement will be shown as Intraday Gains/ Loss for the quantity of shares auctioned.

Corporate action adjustments have been carried out wherever available.

Please note the buy/sell rate is rounded off to 2 decimals whereas the value is calculated upto 4 decimal places.

Notes :

The Holdings reflecting in the Portfolio Reports will not match with the Holdings reflecting in DP statement, you may have to reconcile the holdings with your DP Statement.

To reconcile your trades with your depository transactions, transfers to/from non-JM Financial Services depository accounts have been considered as purchase/sale transactions. The buying or the selling rates as the case may be for such transfers are the previous day's closing prices. This will affect your profitability statements as we are not aware about the actual cost of Purchase or sale done with other Stock brokers.

Auction Entries are reflected in the same date on which the actual transactions have been made and not on the day of Auction. Consequently, the Gain Loss statement will be shown as Intraday Gains/ Loss for the quantity of shares auctioned.

Corporate action adjustments have been carried out wherever available.

Please note the buy/sell rate is rounded off to 2 decimals whereas the value is calculated upto 4 decimal places.

Gain/Loss Report (For F&O / Commodity / Currency)

Summary Report (1039)

Report Coverage : MCX COMM

Client Code :105310133 (RAKESH BHUPATRAI KOTHARI)

Period : 01/04/2026 To 31/10/2026

Notes :

The Holdings reflecting in the Portfolio Reports will not match with the Holdings reflecting in DP statement, you may have to reconcile the holdings with your DP Statement.

To reconcile your trades with your depository transactions, transfers to/from non-JM Financial Services depository accounts have been considered as purchase/sale transactions. The buying or the selling rates as the case may be for such transfers are the previous day's closing prices. This will affect your profitability statements as we are not aware about the actual cost of Purchase or sale done with other Stock brokers.

Auction Entries are reflected in the same date on which the actual transactions have been made and not on the day of Auction. Consequently, the Gain Loss statement will be shown as Intraday Gains/ Loss for the quantity of shares auctioned.

Corporate action adjustments have been carried out wherever available.

Please note the buy/sell rate is rounded off to 2 decimals whereas the value is calculated upto 4 decimal places.

Notes :

The Holdings reflecting in the Portfolio Reports will not match with the Holdings reflecting in DP statement, you may have to reconcile the holdings with your DP Statement.

To reconcile your trades with your depository transactions, transfers to/from non-JM Financial Services depository accounts have been considered as purchase/sale transactions. The buying or the selling rates as the case may be for such transfers are the previous day's closing prices. This will affect your profitability statements as we are not aware about the actual cost of Purchase or sale done with other Stock brokers.

Auction Entries are reflected in the same date on which the actual transactions have been made and not on the day of Auction. Consequently, the Gain Loss statement will be shown as Intraday Gains/ Loss for the quantity of shares auctioned.

Corporate action adjustments have been carried out wherever available.

Please note the buy/sell rate is rounded off to 2 decimals whereas the value is calculated upto 4 decimal places.

Gain/Loss Report (For F&O / Commodity / Currency)

Summary Report (1039)

Report Coverage : MCX COMM

Notes :

The Holdings reflecting in the Portfolio Reports will not match with the Holdings reflecting in DP statement, you may have to reconcile the holdings with your DP Statement.

To reconcile your trades with your depository transactions, transfers to/from non-JM Financial Services depository accounts have been considered as purchase/sale transactions. The buying or the selling rates as the case may be for such transfers are the previous day's closing prices. This will affect your profitability statements as we are not aware about the actual cost of Purchase or sale done with other Stock brokers.

Auction Entries are reflected in the same date on which the actual transactions have been made and not on the day of Auction. Consequently, the Gain Loss statement will be shown as Intraday Gains/ Loss for the quantity of shares auctioned.

Corporate action adjustments have been carried out wherever available.

Please note the buy/sell rate is rounded off to 2 decimals whereas the value is calculated upto 4 decimal places.

Auction Entries are reflected in the same date on which the actual transactions have been made and not on the day of Auction. Consequently, the Gain Loss statement will be shown as Intraday Gains/ Loss for the quantity of shares auctioned.

Corporate action adjustments have been carried out wherever available.

Please note the buy/sell rate is rounded off to 2 decimals whereas the value is calculated upto 4 decimal places.

Notes :

The Holdings reflecting in the Portfolio Reports will not match with the Holdings reflecting in DP statement, you may have to reconcile the holdings with your DP Statement.

To reconcile your trades with your depository transactions, transfers to/from non-JM Financial Services depository accounts have been considered as purchase/sale transactions. The buying or the selling rates as the case may be for such transfers are the previous day's closing prices. This will affect your profitability statements as we are not aware about the actual cost of Purchase or sale done with other Stock brokers.

Auction Entries are reflected in the same date on which the actual transactions have been made and not on the day of Auction. Consequently, the Gain Loss statement will be shown as Intraday Gains/ Loss for the quantity of shares auctioned.

Corporate action adjustments have been carried out wherever available.

Please note the buy/sell rate is rounded off to 2 decimals whereas the value is calculated upto 4 decimal places.

Notes :

The Holdings reflecting in the Portfolio Reports will not match with the Holdings reflecting in DP statement, you may have to reconcile the holdings with your DP Statement.

To reconcile your trades with your depository transactions, transfers to/from non-JM Financial Services depository accounts have been considered as purchase/sale transactions. The buying or the selling rates as the case may be for such transfers are the previous day's closing prices. This will affect your profitability statements as we are not aware about the actual cost of Purchase or sale done with other Stock brokers.

Auction Entries are reflected in the same date on which the actual transactions have been made and not on the day of Auction. Consequently, the Gain Loss statement will be shown as Intraday Gains/ Loss for the quantity of shares auctioned.

Corporate action adjustments have been carried out wherever available.

Please note the buy/sell rate is rounded off to 2 decimals whereas the value is calculated upto 4 decimal places.

Notes :

JM FINANCIAL

JM Financial Services Limited

Gain/Loss Report (For F&O / Commodity / Currency)

Summary Report (1039)

Report Coverage : MCX COMM

Client Code :105310382 (GIRISH THAKARSHI DOSHI)

Period : 01/04/2026 To 31/10/2026

The Holdings reflecting in the Portfolio Reports will not match with the Holdings reflecting in DP statement, you may have to reconcile the holdings with your DP Statement.

To reconcile your trades with your depository transactions, transfers to/from non-JM Financial Services depository accounts have been considered as purchase/sale transactions. The buying or the selling rates as the case may be for such transfers are the previous day's closing prices. This will affect your profitability statements as we are not aware about the actual cost of Purchase or sale done with other Stock brokers.

Auction Entries are reflected in the same date on which the actual transactions have been made and not on the day of Auction. Consequently, the Gain Loss statement will be shown as Intraday Gains/ Loss for the quantity of shares auctioned.

Corporate action adjustments have been carried out wherever available.

Please note the buy/sell rate is rounded off to 2 decimals whereas the value is calculated upto 4 decimal places.

Total :				**205**			**205**		**19,273**	**0**		**(19,273)**		**19,273**

Notes :

The Holdings reflecting in the Portfolio Reports will not match with the Holdings reflecting in DP statement, you may have to reconcile the holdings with your DP Statement.

To reconcile your trades with your depository transactions, transfers to/from non-JM Financial Services depository accounts have been considered as purchase/sale transactions. The buying or the selling rates as the case may be for such transfers are the previous day's closing prices. This will affect your profitability statements as we are not aware about the actual cost of Purchase or sale done with other Stock brokers.

Auction Entries are reflected in the same date on which the actual transactions have been made and not on the day of Auction. Consequently, the Gain Loss statement will be shown as Intraday Gains/ Loss for the quantity of shares auctioned.

Corporate action adjustments have been carried out wherever available.

Please note the buy/sell rate is rounded off to 2 decimals whereas the value is calculated upto 4 decimal places.
